UNBEATABLE PERFORMANCE IN EVERY PRODUCT

Some of the fastest vehicles produced around the world feature our technology.

Prowl the streets. Hit the track. Run boosted or all-motor.

However you roll, TI Automotive fuel pumps and modules deliver the feed you need for the power you demand.

Our products deliver unquestioned fuel flow across a wide pressure range to support outrageous horsepower.

FUEL *YOUR*
ADRENALINE

TI AUTOMOTIVE HIGH-PERFORMANCE FUEL SYSTEMS

You don't get to be a worldwide leader in automotive fuel systems by settling for "good enough." You have to deliver rock-solid reliability. You have to engineer to win. And you have to settle for nothing less than superior hot fuel handling performance. That's why leading brands turn to us for true OE-quality fuel system replacement parts.

OUR MANUFACTURING SITE

CARO, MICHIGAN

The Caro, MI plant is TI Automotive's high performance and aftermarket fuel pump and module manufacturing site. Our fuel pumps and modules are never manufactured or assembled by a third party or sourced from an outside company. Our engineering and product teams consist of high-performance enthusiasts.

- Began manufacturing electric fuel pumps in 1983
- Certified TS-16949 and ISO-14001
- 5 fuel pump assembly lines
- 14 module assembly lines

Our world-class test center in Caro, MI is a NEMA Class 1 Div 1 rated fuel lab, and facilitates our R&D team to test pumps and modules in extreme temperatures, adverse conditions, and with over 50 different fuel blends. We test for durability, reliability and performance, noise, vibration and harshness, and more. Our commitment to testing ensures that TI Automotive pumps and modules perform under tough conditions and deliver long lasting performance and durability.

TI Automotive

THE ONLY HIGH-PERFORMANCE MUSTANG DROP-IN FUEL MODULE

FIRST TO MARKET BECAUSE FAST MATTERS

TI Automotive TU2037HP (MY11–14) and TU2038HP (MY15–18) Mustang Fuel Pump Modules

- TI Automotive introduces a market first – drop-in high-performance fuel modules engineered specifically for the newest generation (V, VI) Ford Mustangs. Award winning DCSS (Dual Channel Single Stage) fuel pump technology and active fill system enables up to 650HP on naturally aspirated applications.
- These modules are E85 Flex Fuel compatible. High-pressure, high-flow performance for your Mustang.

About TI Automotive

TI Automotive manufactures a complete line of fuel pumps, accessories, pump kits, and fuel modules for the high-performance aftermarket. Approximately two-thirds of the vehicles produced around the world feature TI Automotive's products and technology. TI Automotive's award-winning fuel delivery system technology is featured on some of the world's highest performing production vehicles and supercars.

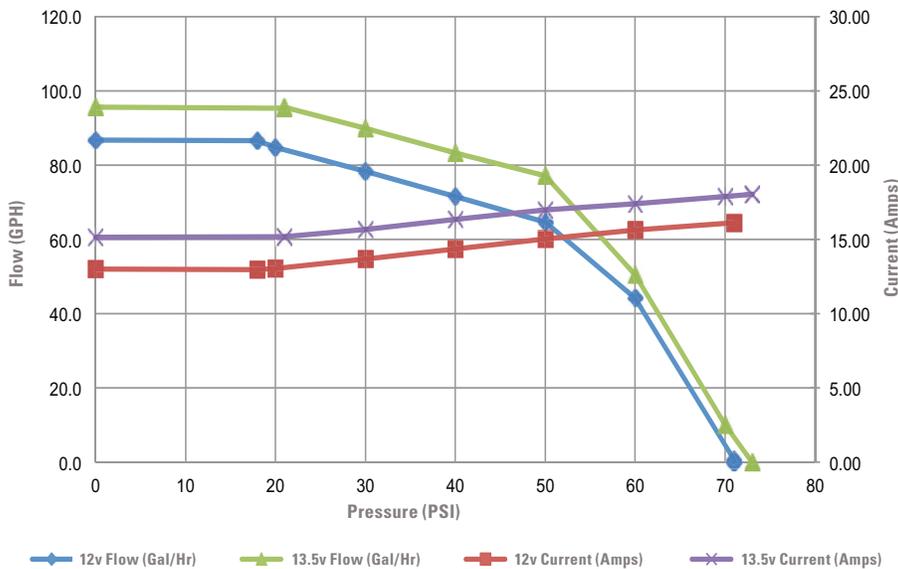

Walbro Automotive Fuel Pumps are now TI Automotive

For decades, Walbro automotive fuel pumps have been manufactured by TI Automotive. These same pumps are now branded with the TI Automotive name, carrying a legacy of more than 60 years of manufacturing the most popular drop-in fuel pumps, with the same performance, quality and reliability that you have come to know and expect.

MORE FLOW = MORE POWER...

TU2037HP and TU2038HP Mustang Fuel Pump Modules

Complete, drop-in fuel pump module covers:

TU2037HP: MY11 – 14 Mustang

TU2038HP: MY15 – 18 Mustang

- Drop-in unit designed for plug and play operation
- Featuring PACE award-winning DCSS fuel pump technology
- E85 Flex Fuel compatible
- Engineered with active fill system to support additional pump output
- Capable of supporting up to 650HP naturally aspirated applications
- Award-winning TI Automotive high-performance fuel systems power the world's fastest production cars.

PERFORMANCE FROM THE INSIDE

HIGHEST OUTPUT IN-TANK FUEL PUMP ON THE MARKET

TI Automotive F90000285 39/50 Fuel Pump

- Enjoy the highest output on today's market with our new DCSS 39/50 fuel pump. Able to support an aggressive 700+ horsepower, with a super charger, this innovative dual pumping channel design delivers maximum pressure with superior fuel flow. Operating in both gas and E85, this fuel pump comes with a check valve to avoid system leak-down and extended cranking at start-up. This superior design results in improved hot fuel flow, as well as minimal noise, increasing efficiency by 20% over conventional pumps, delivering unparalleled performance.

Pump Specifications:

- Pump Length: 131mm
- Main Housing Diameter: 39mm
- Lower Housing Diameter: 50mm
- Fuel Inlet Diameter: 11mm OD
- Fuel Outlet Diameter: 11mm OD
- Flow Rate: 470lph @ 40psi (120+ gph)
- Test Voltage: 13.5 Volts

About TI Automotive

TI Automotive manufactures a complete line of fuel pumps, accessories, pump kits, and fuel modules for the high-performance aftermarket. Approximately two-thirds of the vehicles produced around the world feature TI Automotive's products and technology. TI Automotive's award-winning fuel delivery system technology is featured on some of the world's highest performing production vehicles and supercars.

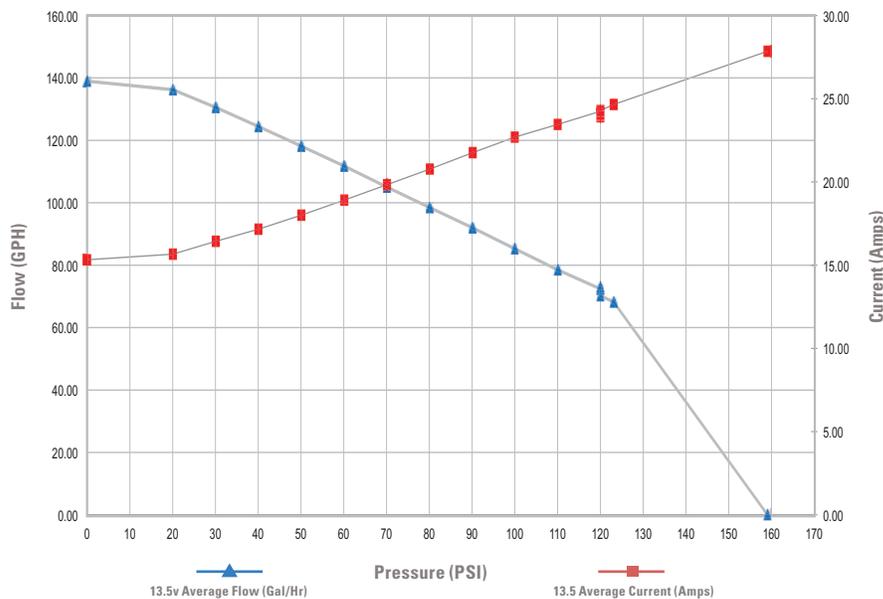

Walbro Automotive Fuel Pumps are now TI Automotive

For decades, Walbro automotive fuel pumps have been manufactured by TI Automotive. These same pumps are now branded with the TI Automotive name, carrying a legacy of more than 60 years of manufacturing the most popular drop-in fuel pumps, with the same performance, quality and reliability that you have come to know and expect.

MORE FLOW = MORE POWER...

F90000285 Flex Fuel HP Pump

TCD470: Fuel Pump and Kit

400-1174: Installation Kit

F90000285 Flex Fuel HP Pump

The innovative design of the DCSS 39/50 features a single impeller with two parallel rows of turbine blades. Designed for high performance engines exceeding 700HP.

- Highest flow in-tank brushed fuel pump offering from TI Automotive
- Featuring award winning DCSS technology
- E85 compatible
- Internal check valve — prevent fuel system pressure bleed down — avoid extended cranks
- High pressure relief setting — support supercharger and turbo applications
- Capable of supporting 900+HP at 60PSI naturally aspirated applications
- Flush mountable to existing hanger with installation kit 400-1174

THE BRUSHLESS FUEL PUMP PERFORMANCE STANDARD

IN-TANK BRUSHLESS DESIGN PACKED WITH POWER

TI Automotive BKS1000 Brushless Pump and Controller Kit

- TI Automotive's new in-tank brushless fuel pump utilizes advanced technology for maximum reliability and efficiency. The result is a next-generation pump for any type of engine offering precise control of fuel pressure, lower current draw, reduced heat and less noise. Supporting up to 1000+ HP, the BKS1000 provides more power, more torque and more speed. Matched controller with simple power and ground operations for easy maintainability. The controller features sealed electronics for weather resistance.

Brushless Pump Specifications:

- 550+ LPH @ 13.5V / 40 psi
- Capable up to 1000+ HP
- High flow, high pressure
- Reduced noise
- Suitable for both naturally aspirated and boosted applications

About TI Automotive

TI Automotive manufactures a complete line of fuel pumps, accessories, pump kits, and fuel modules for the high-performance aftermarket. Approximately two-thirds of the vehicles produced around the world feature TI Automotive's products and technology. TI Automotive's award-winning fuel delivery system technology is featured on some of the world's highest performing production vehicles and supercars.

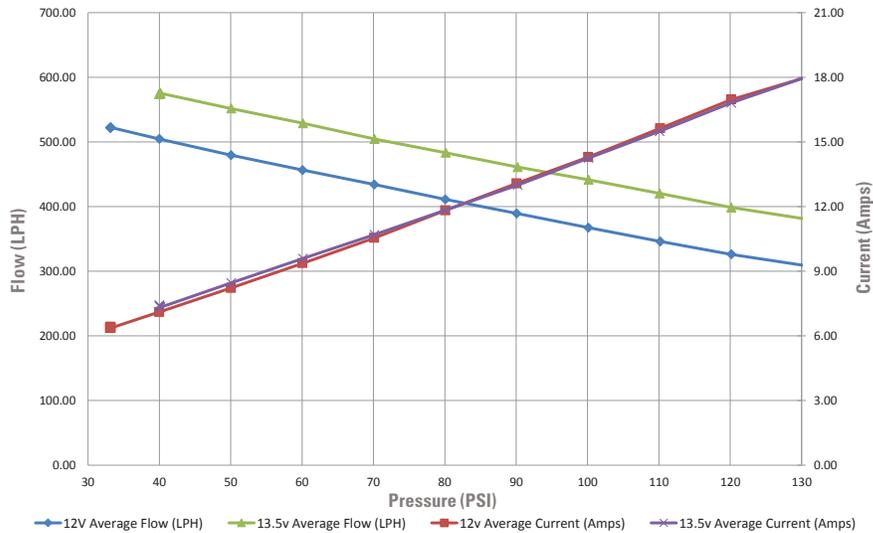

Walbro Automotive Fuel Pumps are now TI Automotive

For decades, Walbro automotive fuel pumps have been manufactured by TI Automotive. MORE FLOW = MORE POWER...

BKS1000 Gas Flow Chart

BKS1000 Brushless Pump Kit includes:

TI Automotive Popular E5LM Brushless Screw Pump

- Designed for in-tank installation
- Triple barb outlet
- Efficient screw pump design with positive displacement

TI Automotive Controller

- TI Automotive-developed brushless controller logic
 - Simple power and ground operation
 - Pump output set at 100% duty cycle for maximum performance
- Matched pump and controller
- 3' long power, ground, and pump control leads provide mounting location flexibility
- Sealed electronics for weather resistance

Kit Components:

- 3' long wiring pig tail for in-tank mounting
- Pump mounting inlet grommet and outer sleeve
 - Ideal for installation of brushless pump to existing hanger bracket
 - Helps reduce noise during operation
- High-performance pump inlet filter
- Printed instructions with diagrams and color photos

NEW 350 LPH HIGH-PERFORMANCE IN-TANK 39MM FUEL PUMPS

SUPPORTS 600+ HORSEPOWER AT 40 PSI 13.5V

TI Automotive GSS350G3, GSS351G3, GSS352G3 Fuel Pumps

- 600+ horsepower! TI Automotive's new GSS fuel pumps are lapping the field with increased flow rates of 350 lph. Our proven, robust gerotor technology is inside every 39mm straightwall GSS 350, perfect for forced induction (turbocharged and supercharged) applications. We've launched three 350 lph pump versions giving you multiple options to fuel your adrenaline because fast matters!

GSS350G3
22mm Center Inlet

GSS351G3
11mm Inlet – 180° from the outlet

GSS352G3
11mm Inlet – Inline with the outlet

NEW!

- 350 lph
- 90 gph

RATED AT 40PSI 13.5V

About TI Automotive

TI Automotive manufactures a complete line of fuel pumps, accessories, pump kits, and fuel modules for the high-performance aftermarket. Approximately two-thirds of the vehicles produced around the world feature TI Automotive's products and technology. TI Automotive's award-winning fuel delivery system technology is featured on some of the world's highest performing production vehicles and supercars.

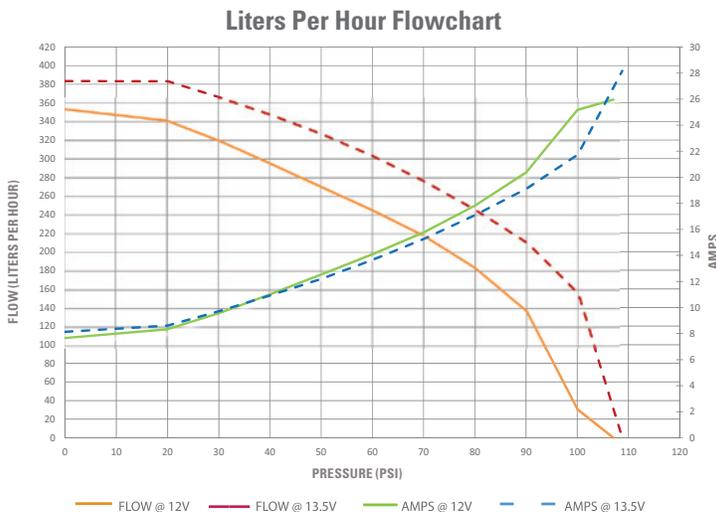

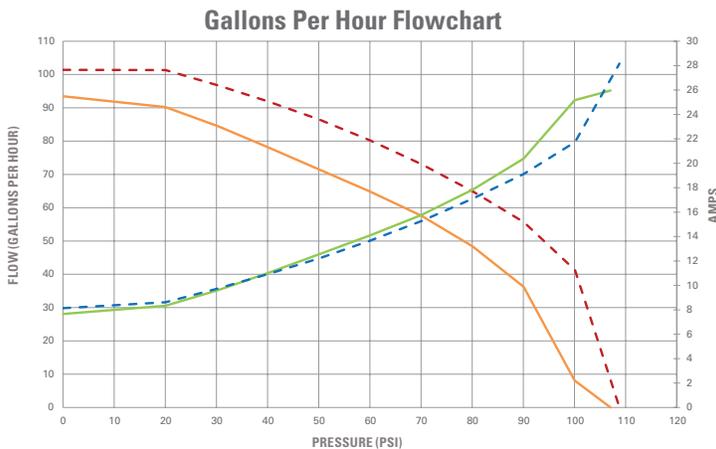

Walbro Automotive Fuel Pumps are now TI Automotive

HIGH-PERFORMANCE FLOW RATES

NEW! GSS350G3, GSS351G3, GSS352G3 Pump Performance

Three versions of 350 lph pumps to help you find the correct pump for your needs

- Features an upgraded outlet design with improved one piece construction
- Fuel: Gas
- OE quality
- 39mm diameter
- Easily mountable to new or existing in-tank hangers

Other features & benefits:

- Positive displacement for robust performance
- Manufactured in TI Automotive's Caro, Michigan plant

FUEL PUMPS

IN-TANK AND IN-LINE FUEL PUMPS

Our complete range of in-line and in-tank pumps feature components and systems that are developed and constantly validated to meet ever-changing regulatory requirements. No wonder TI Automotive is widely recognized as the leader in direct-fit fuel system upgrades for more than 20 years.

- **COMPATIBLE WITH MOST VEHICLES AND FUEL TYPES**
- **UNSURPASSED QUALITY, RELIABILITY AND PERFORMANCE**
- **BUILT TO EXCEED OE SPECIFICATIONS**
- **HIGH FLOW RATES AVAILABLE (UP TO 470 LPH)**
- **HIGH-PRESSURE PERFORMANCE (UP TO 112 PSI)
WITH MINIMAL FLOW LOSS**
- **SUPERIOR HOT FUEL HANDLING PERFORMANCE**

The industry's gold standard for over two decades, the GSS line is compatible with a wide range of vehicles, features unsurpassed quality, durability and performance, and is designed and manufactured in the USA.

FUEL PUMP ACCESSORIES

FILTERS, WIRE HARNESSSES, FITTINGS AND HOSES

Feed the flow from our high-performance fuel pumps and modules with a wide range of installation accessories, including hoses, filters, and wiring harnesses. TI Automotive has what your fuel system needs, even if that means a custom installation.

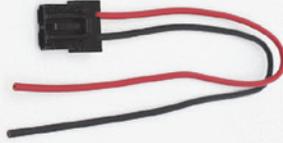

FUEL PUMP ACCESSORIES

Accessories

94-614

TI Automotive GSS pump connector to Mitsubishi style connector. Wire is 16 AWG. Overall length is 7".

94-615

Universal wire harness with TI Automotive GSS pump connector on one end. Wire is 14 AWG. Overall length is 12". Use with 187-113 butt connectors.

94-638

Female spade connectors to Mitsubishi style connector. Wire is 16 AWG. Overall length is 7".

94-639

TI Automotive GSS pump connector to ring terminals. Wire is 14 AWG. Overall length is 7".

94-646

TI Automotive GSS pump connector to Mitsubishi style connector. Polarity is reverse of 94-614. Wire is 16 AWG.

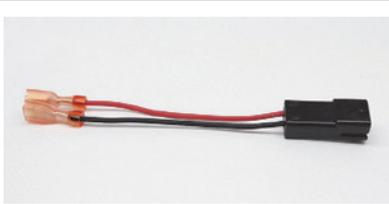

94-647

Female spade terminals to Mitsubishi style connector. Wire is 16 AWG. Overall length is 7". Polarity is reverse of 94-638.

Wire Harness For In-Tank Use Only

FUEL PUMP ACCESSORIES

Accessories

94-663

Female spade connectors to GM style connector. Wire is 18 AWG. Overall length is 5". Used to adapt pumps with spade terminals to GM brackets.

94-668

TI Automotive GSS pump connector to GM style connector. Wire is 18 AWG. Overall length is 5". Used to adapt pumps with GSS terminals to GM brackets.

94-686

Universal wire harness with TI Automotive GSS pump connector on one end. Wire is 14 AWG. Overall length is 42". Use with 187-113 butt connectors.

94-696

Female spade connectors to TI Automotive GSS pump (male terminals). Used to adapt GSS style bracket to a spade terminal pump.

94-701

TI Automotive GSS pump connector to Ford style connector. Wire is 16 AWG. Overall length is 5.75".

000107694

Universal wire harness to be used with TI Automotive High Performance F90000267 pump. Wire is 14 AWG. Pink w/black stripe is positive wire, black is negative wire.

Wire Harness For In-Tank Use Only

FUEL PUMP ACCESSORIES

Accessories

0940247

TI Automotive blade connector style pump to Ford small electrical connector harness.

187-113

Butt connectors. Use with 94-615 and 94-686

400-920

In-line mounting clamp & sleeve kit.

400-929

In-line hardware kit.

128-3012

Bundy outlet or inlet. 400-929 kit required for each pump.

128-3014

9mm multi-barb outlet or inlet. 400-929 kit required for each pump.

Wire Harness For In-Tank Use Only

FUEL PUMP ACCESSORIES

Accessories

128-3023

10mm threaded outlet or inlet.
400-929 kit required for each
pump.

128-3024

8mm single barb outlet or inlet.
400-929 kit required for each
pump.

128-3025

12mm outside diameter inlet.
400-929 kit required for each
pump.

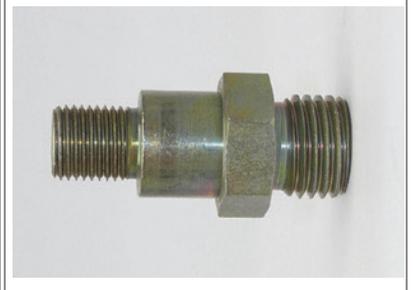

128-3026

15mm outside diameter inlet.
400-929 kit required for each
pump.

128-3027

12mm banjo outlet or inlet.
400-929 kit required for each
pump.

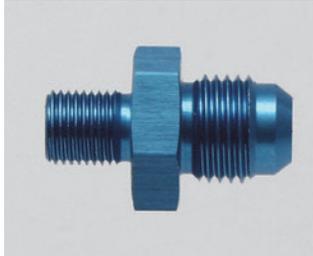

128-3028

14mm DIN outlet.
400-929 kit required for each
pump.

Pump Kit Contains Installation Kit and Fuel Pump

***FUEL
PUMP KITS***

Race-winning power is just around the corner with these high-performance fuel pump kits that deliver the flow you need, for the speed you want.

FEATURES AND BENEFITS INCLUDE:

- Race-proven design
- Award-winning OE-based technology featuring the DCSS 39/50 Fuel Pump
- Designed as direct-fit replacements
- All installation components included with each kit*
- Flow that screams / Performance that excites

* Requires modifications to wiring, fuel lines and fuel module. Professional installation recommended.

***FUEL
MODULES***

THE MARKET LEADER IN HIGH-PERFORMANCE CAR AND TRUCK FUEL MODULES

TI Automotive fuel modules deliver killer performance so you can build it bigger. The OE-designed technology combines a high-performance fuel pump, OE-validated filtration, and level sensing. These modules are available as a complete drop-in plug-and-play solution, covering a wide variety of vehicles, from sports cars to pickup trucks.

FEATURES

- Award-winning DCSS turbine pump technology
- HP modules designed for return line and Pulse Width Modulated (PWM) systems
- Jet design delivers unquestioned flow under all load conditions
- Drop-in OEM style plug-and-play performance modules

***HOW TO READ THE
FLOW CHARTS TO SEE
THE TI AUTOMOTIVE
PERFORMANCE***

***WHEN SELECTING YOUR PUMP, ENSURE YOU HAVE
ADEQUATE FLOW TO AVOID A LEAN CONDITION!***

SUPERBLY ENGINEERED FOR UNQUESTIONED FLOW

No one in the industry does more extensive testing than we do. As an OE supplier, we set high standards for durability, reliability, and performance because our customers demand it. More importantly, so do we. In our Caro, MI proprietary testing facility, we make sure we exceed those standards – then transfer that quality into our aftermarket line of products. Check out the results for yourself and you'll see why we call it “flow that screams.”

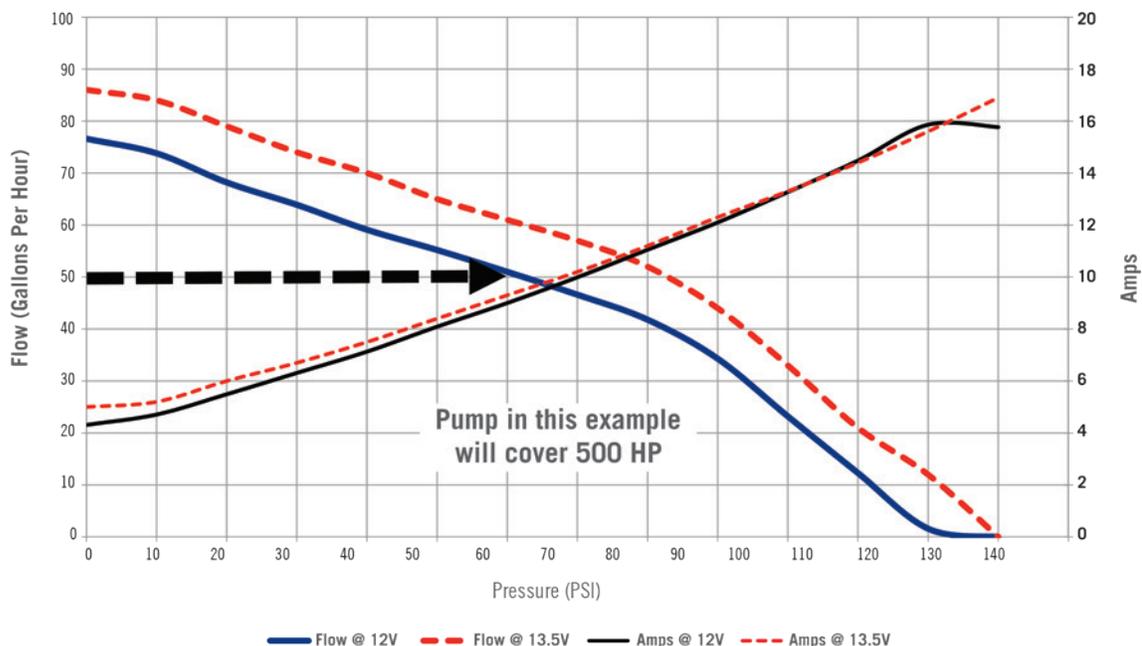

SELECTING THE CORRECT FUEL PUMP FOR YOUR PERFORMANCE ENGINE IS CRITICAL!

3 IMPORTANT FACTORS:

- How much horsepower will your engine produce? 1 GPH = 10 HP @ flywheel
- What fuel pressure is required by your engine? Operating System Pressure
- What voltage is supplied to your fuel pump when the engine is running? 12V typical

MORE FLOW = MORE POWER.

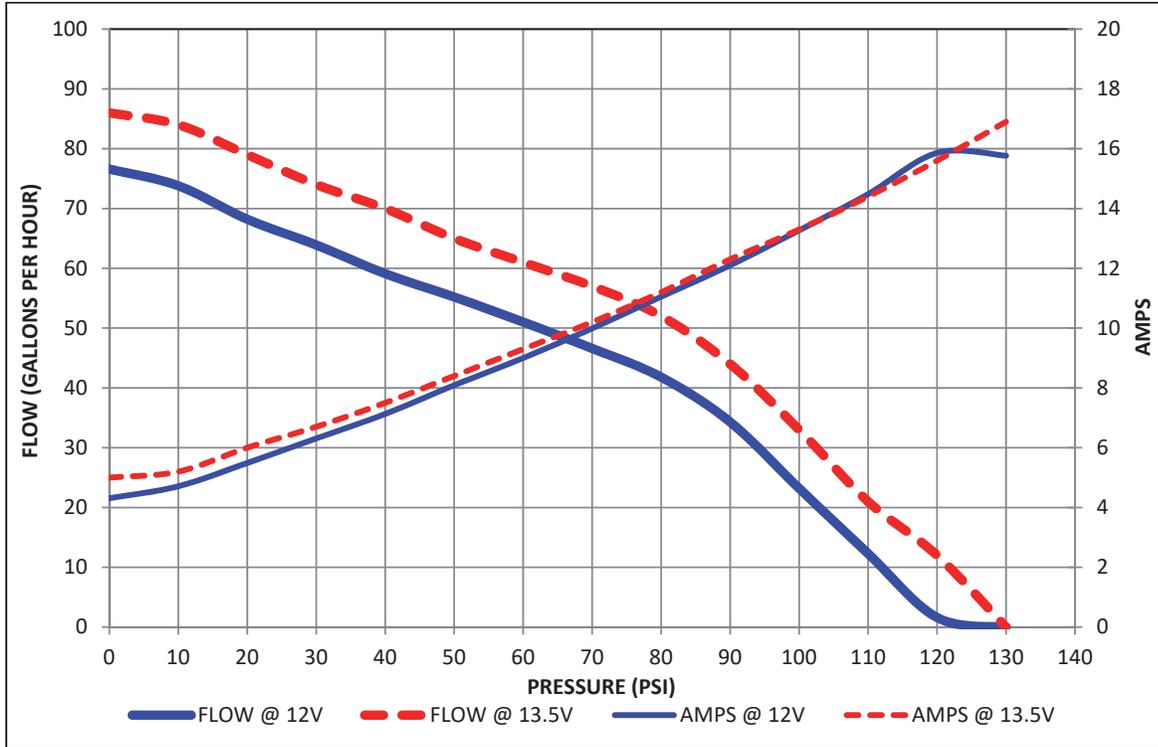

TYPICAL PUMP MAX SYSTEM PRESSURE 87 PSI

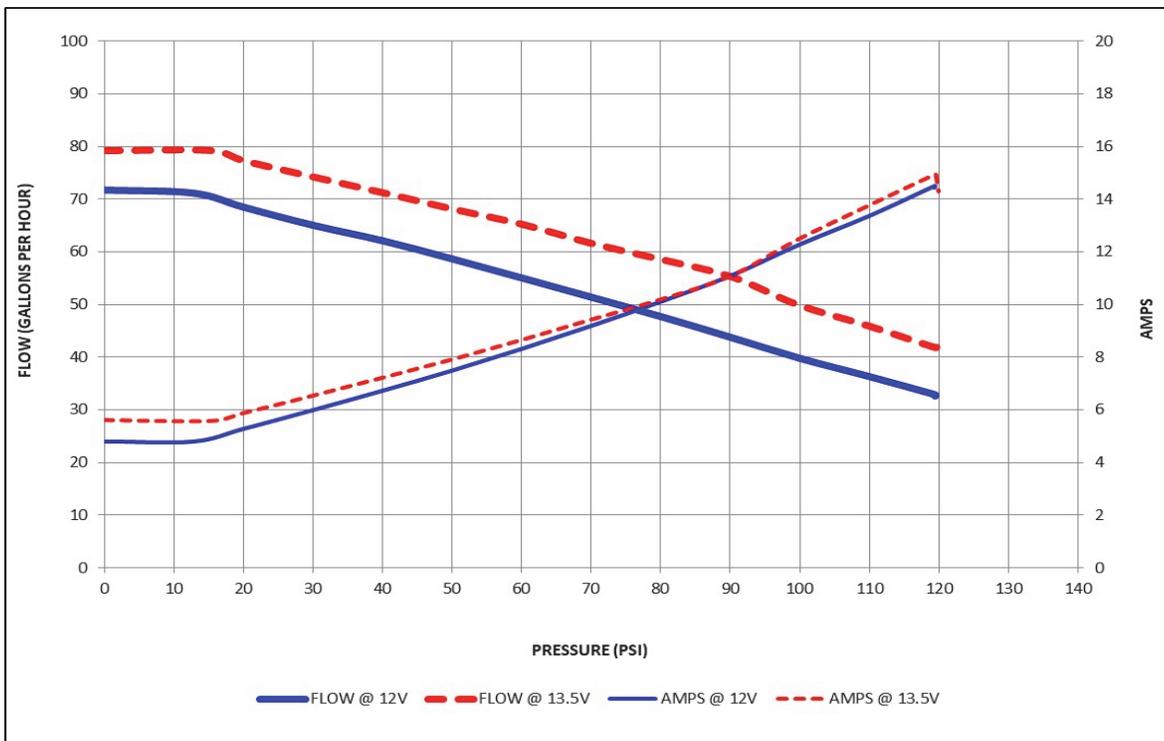

Use the flow curve, utilizing the values from the 3 important questions above, to verify that you are choosing the proper pump for your vehicle.

FLOW CHARTS

**TYPICAL 255 LPH PUMP MAX SYSTEM PRESSURE 87 PSI
KIT SUFFIX ENDING IN 04**

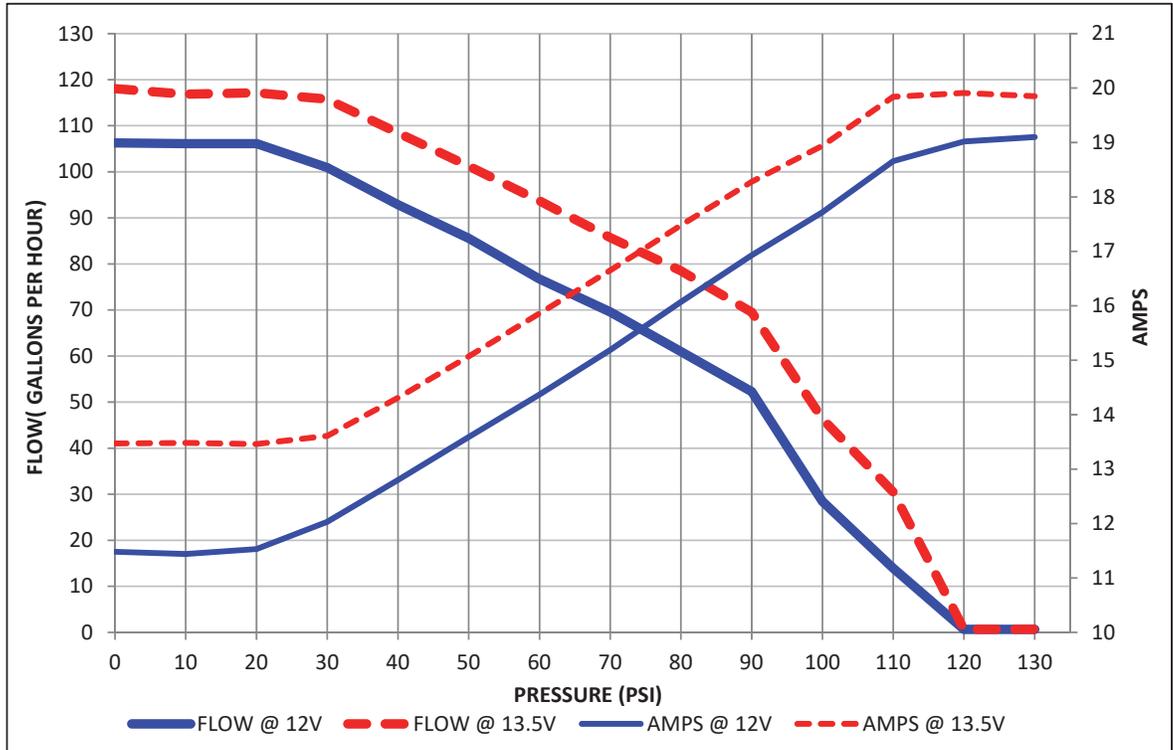

**TYPICAL 255 LPH PUMP MAX SYSTEM PRESSURE 112 PSI
KIT SUFFIX ENDING IN 05**

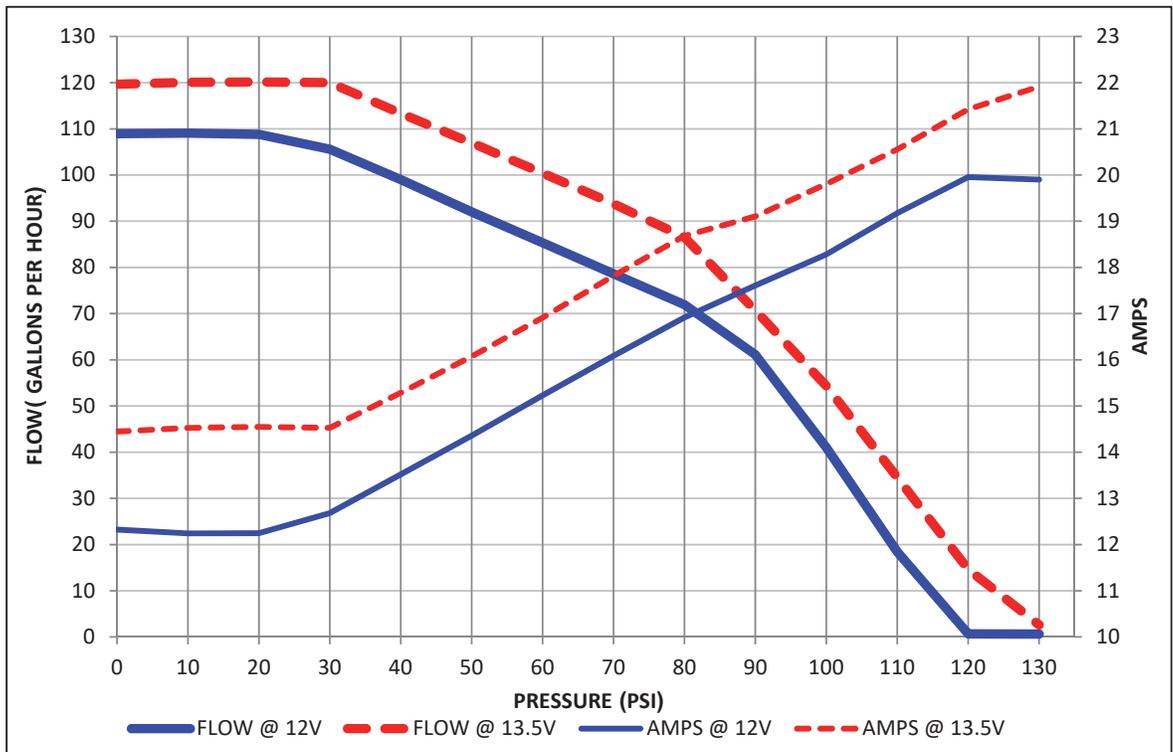

FLOW CHARTS

TYPICAL F90000262 PUMP
MAX SYSTEM PRESSURE 87 PSI

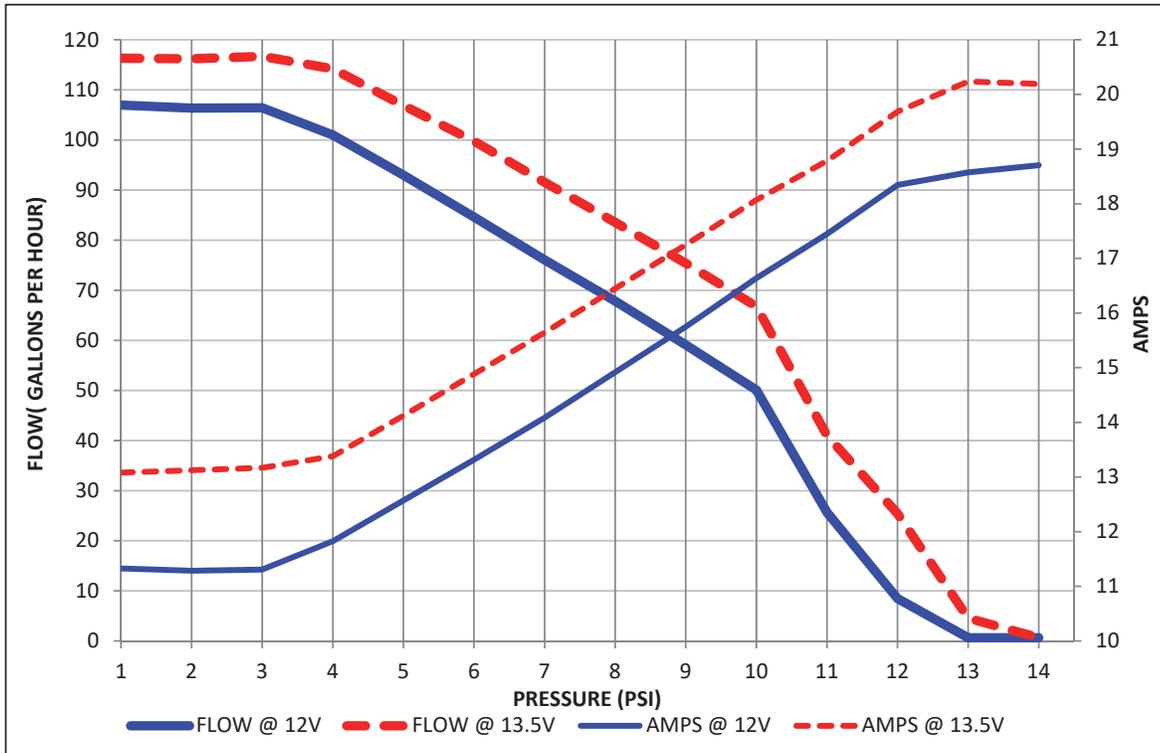

TYPICAL F90000267 PUMP
MAX SYSTEM PRESSURE 87 PSI

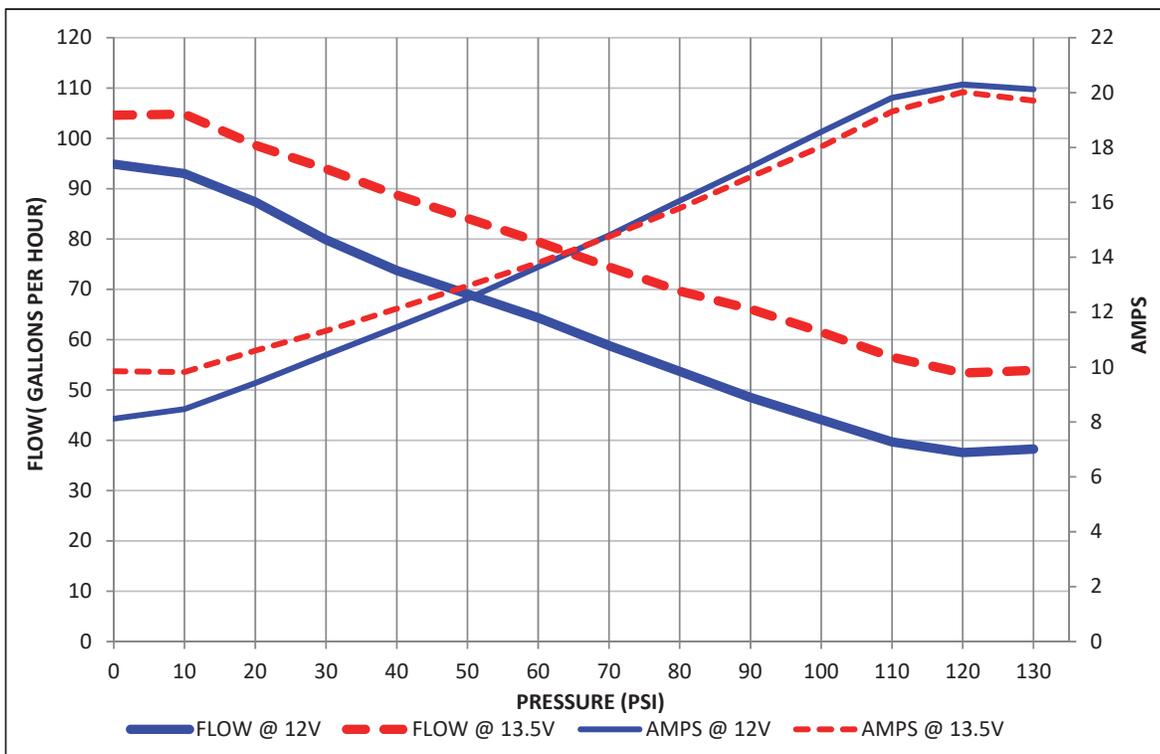

FLOW CHARTS

**TYPICAL TCD300HP KIT
MAX SYSTEM PRESSURE 87 PSI**

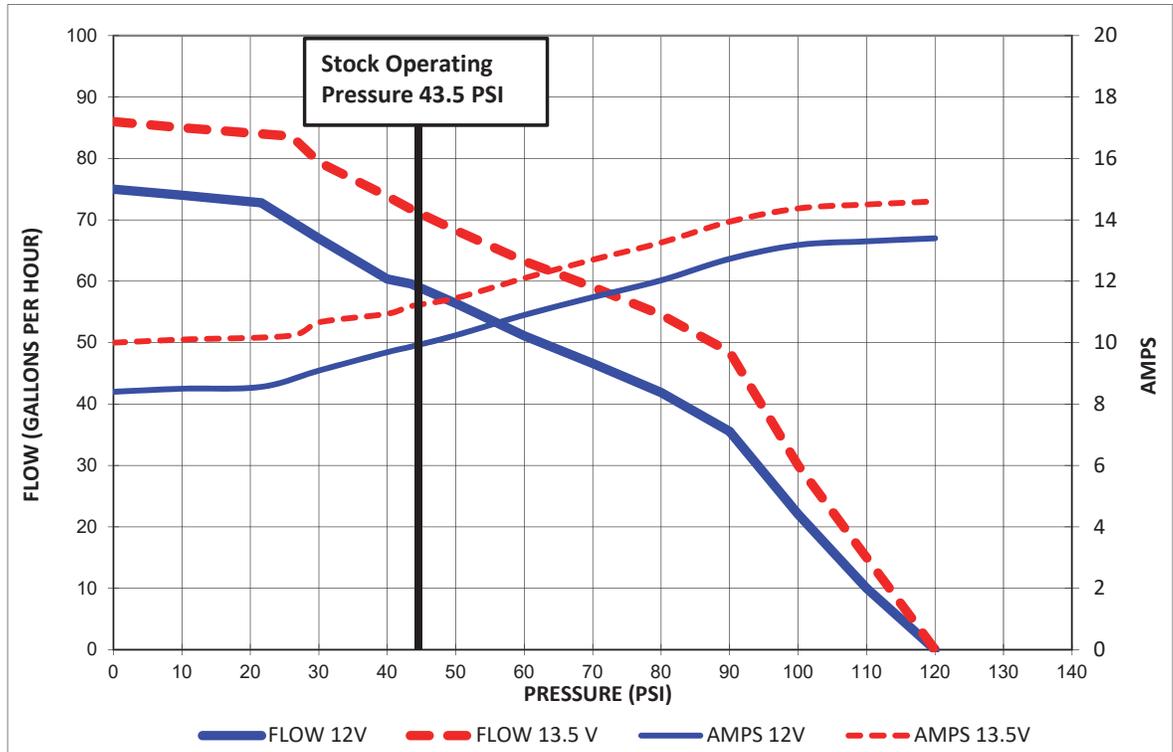

**TYPICAL GCL624 & GCL627 KIT MAX SYSTEM PRESSURE 87 PSI
7.00228.51 PUMP**

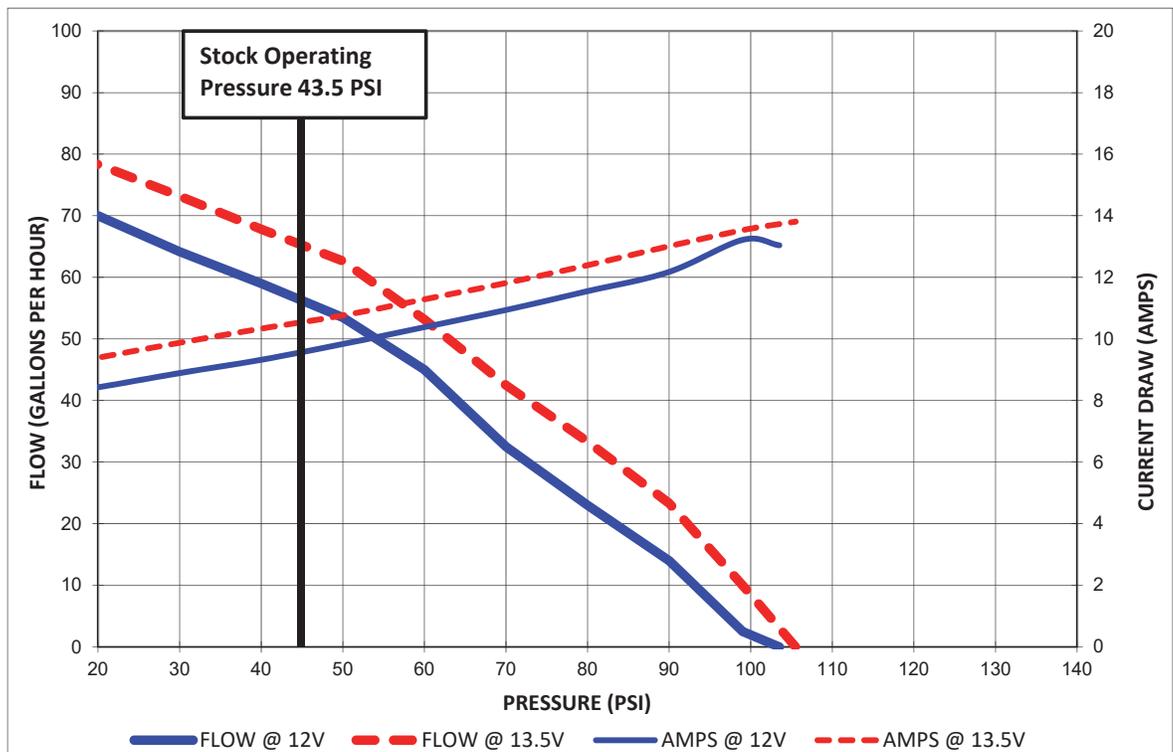

FLOW CHARTS

TYPICAL HIGH PERFORMANCE FOCUS, MUSTANG & TAURUS MODULE

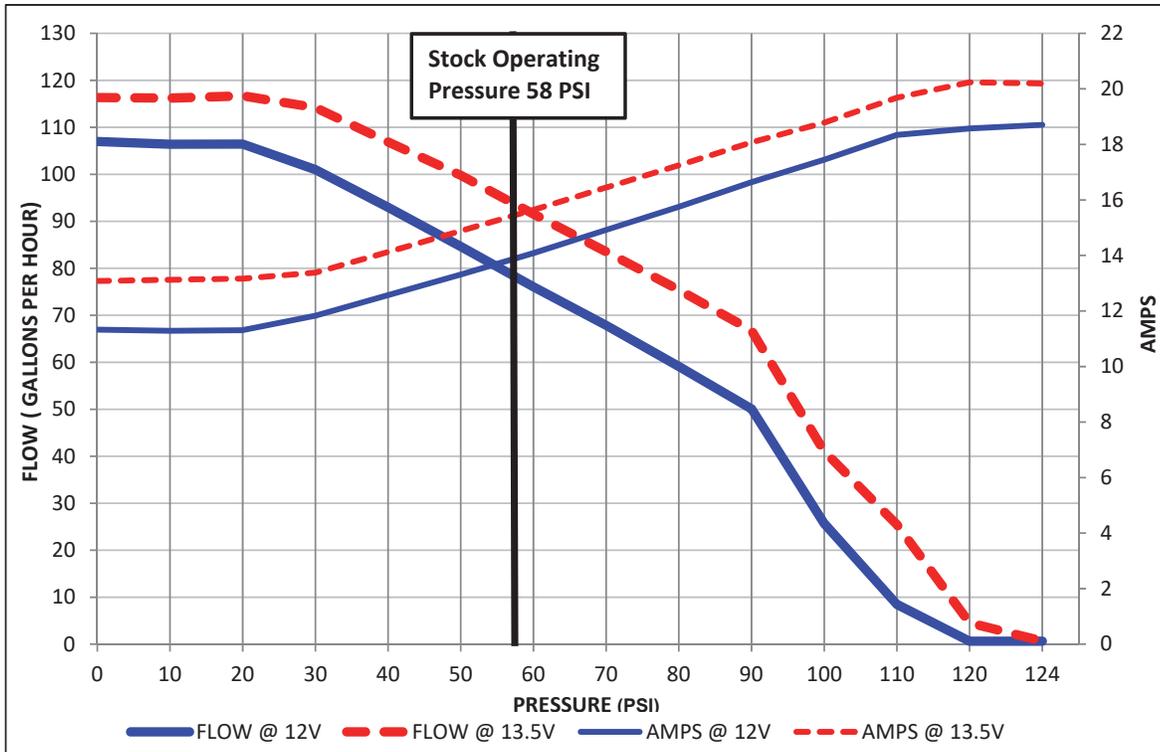

TYPICAL HIGH PERFORMANCE F-150 MODULE

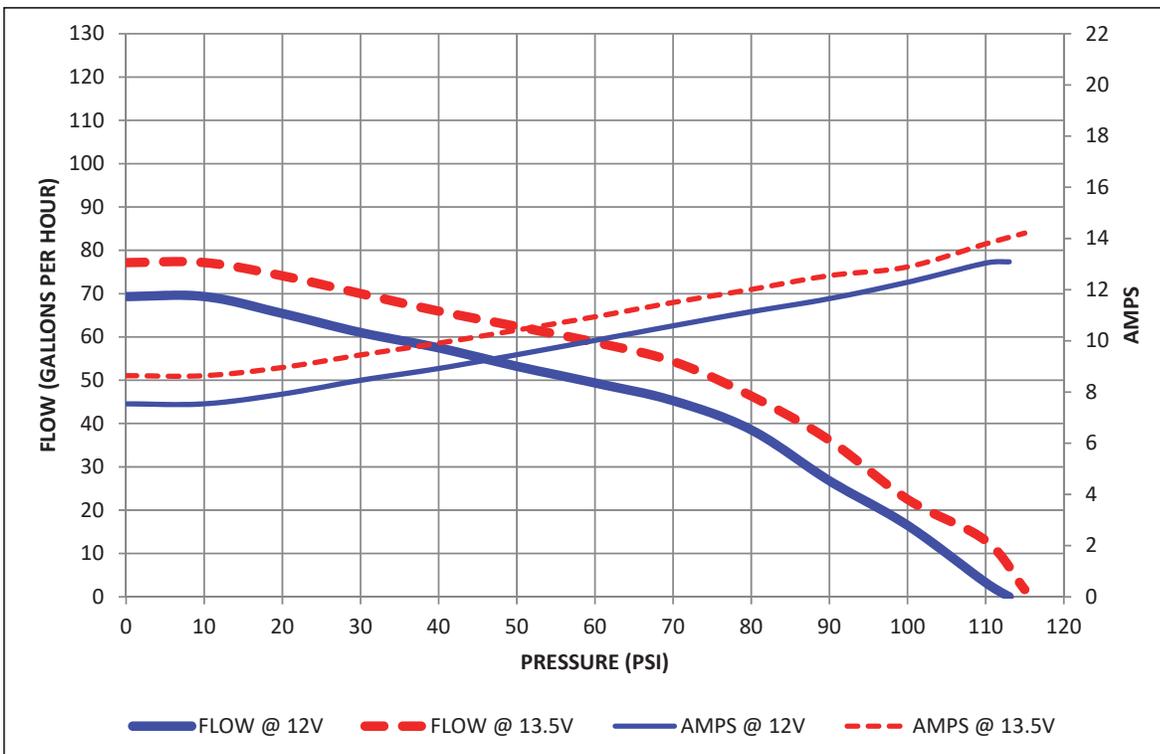

FLOW CHARTS

TYPICAL HIGH PERFORMANCE GMT900 TRUCK MODULE

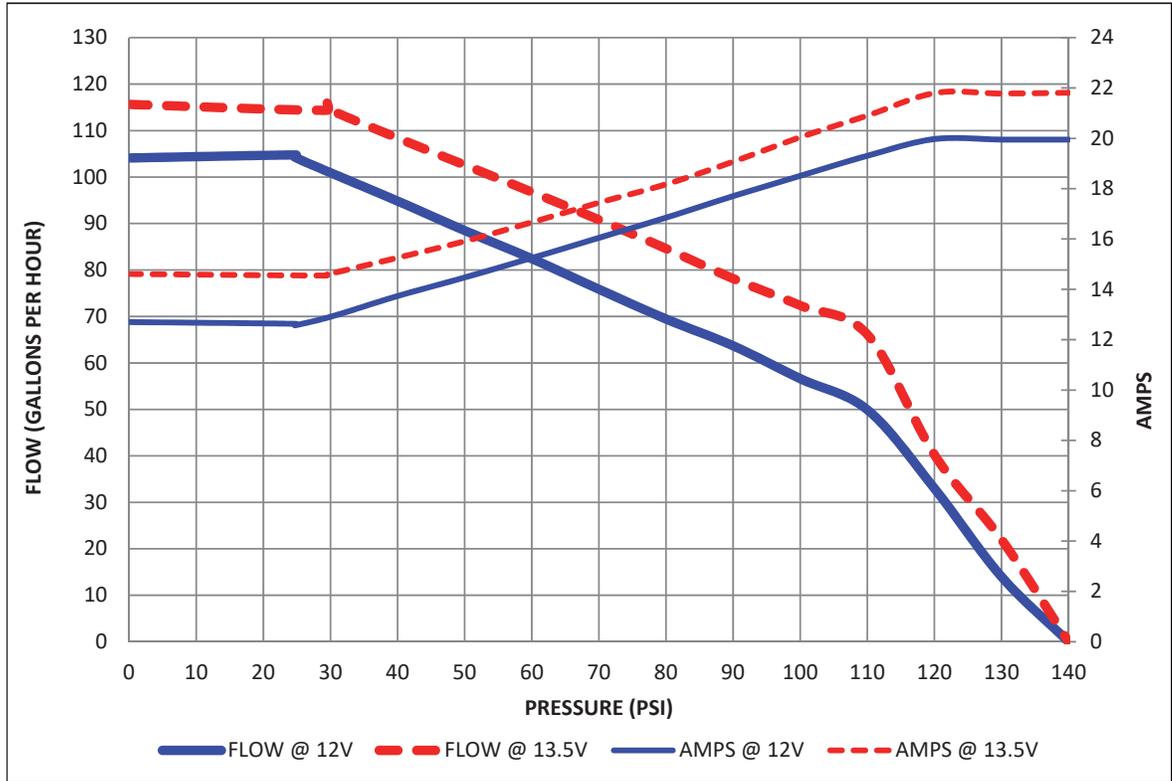

TYPICAL F10000302 & F10000305 PUMP T1.78 TURBINE PUMP MAX SYSTEM PRESSURE 87 PSI

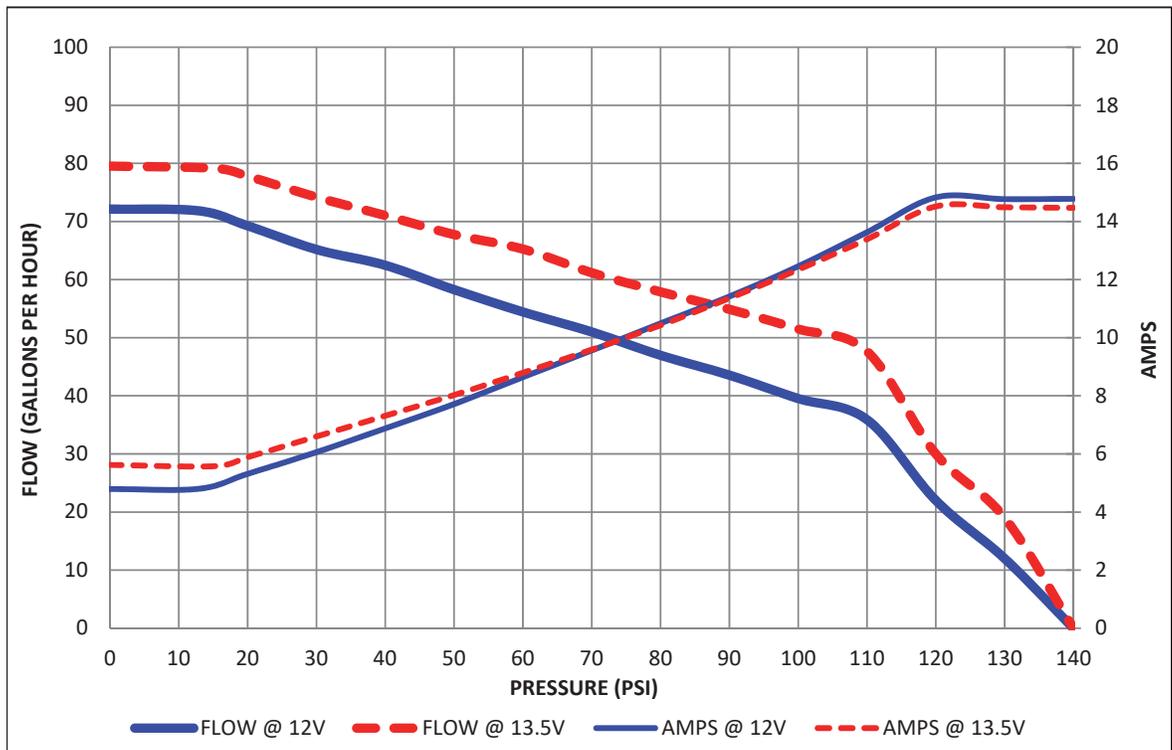

FLOW CHARTS

**TYPICAL F90000274 PUMP
FLEX FUEL MAX SYSTEM PRESSURE 112PSI**

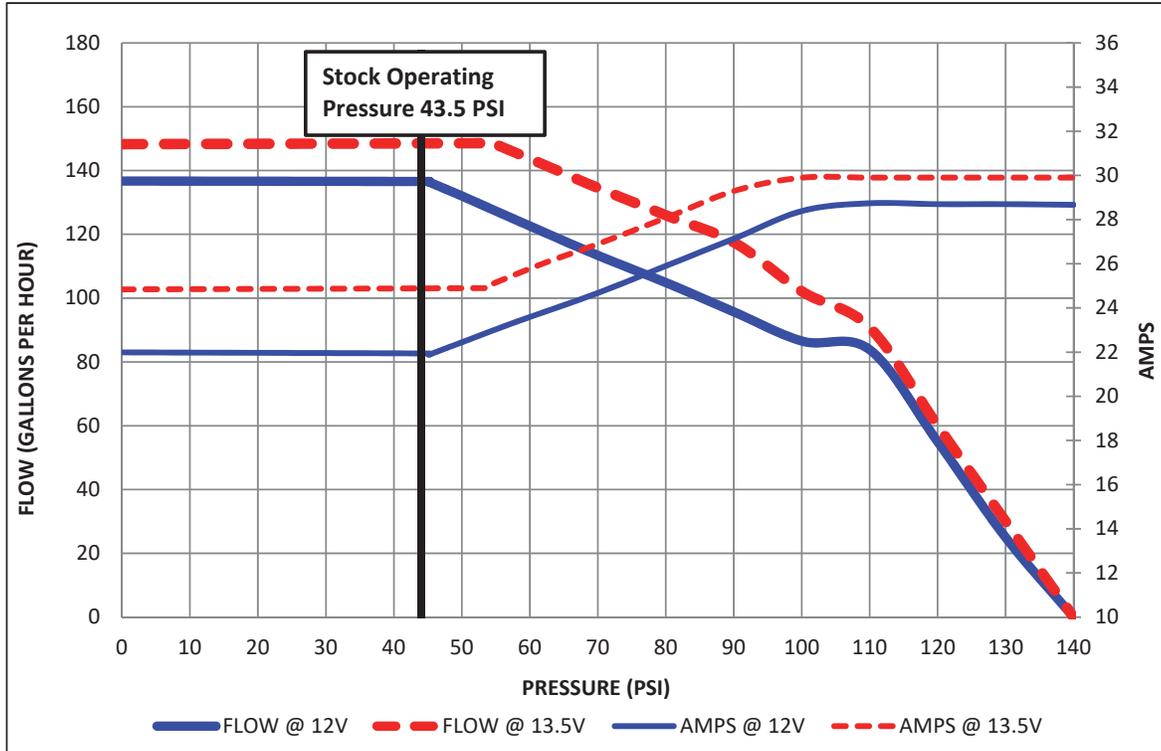

**TYPICAL F20000311, F20000312, & F20000313 PUMP
MAX SYSTEM PRESSURE 112PSI**

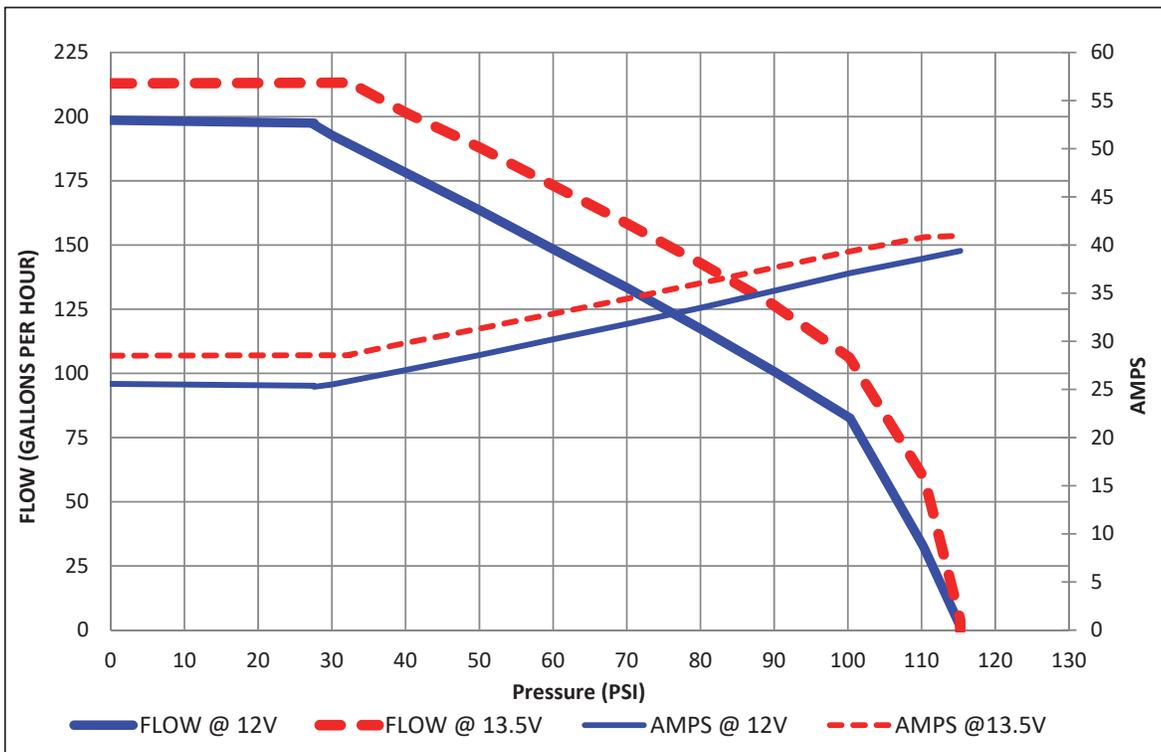

FLOW CHARTS

TYPICAL F150 / TCA946 DUAL PUMP
MAX SYSTEM PRESSURE 87 PSI

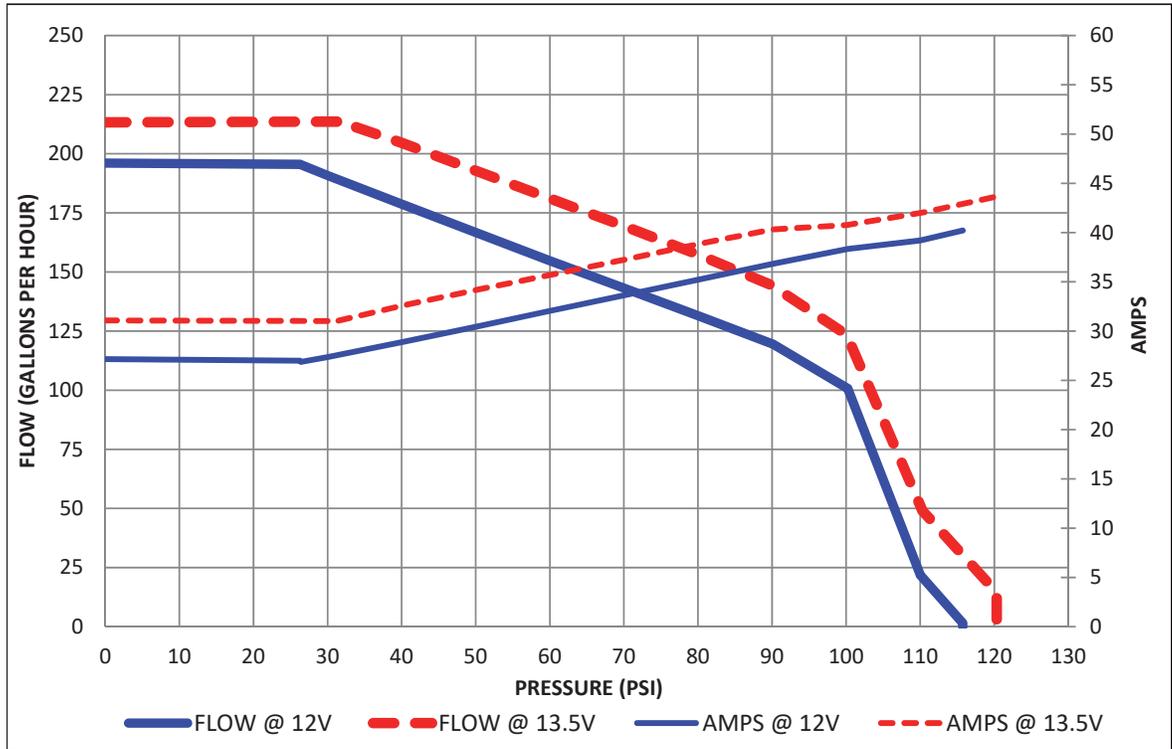

TCA947 DUAL PUMP
MAX SYSTEM PRESSURE 87 PSI

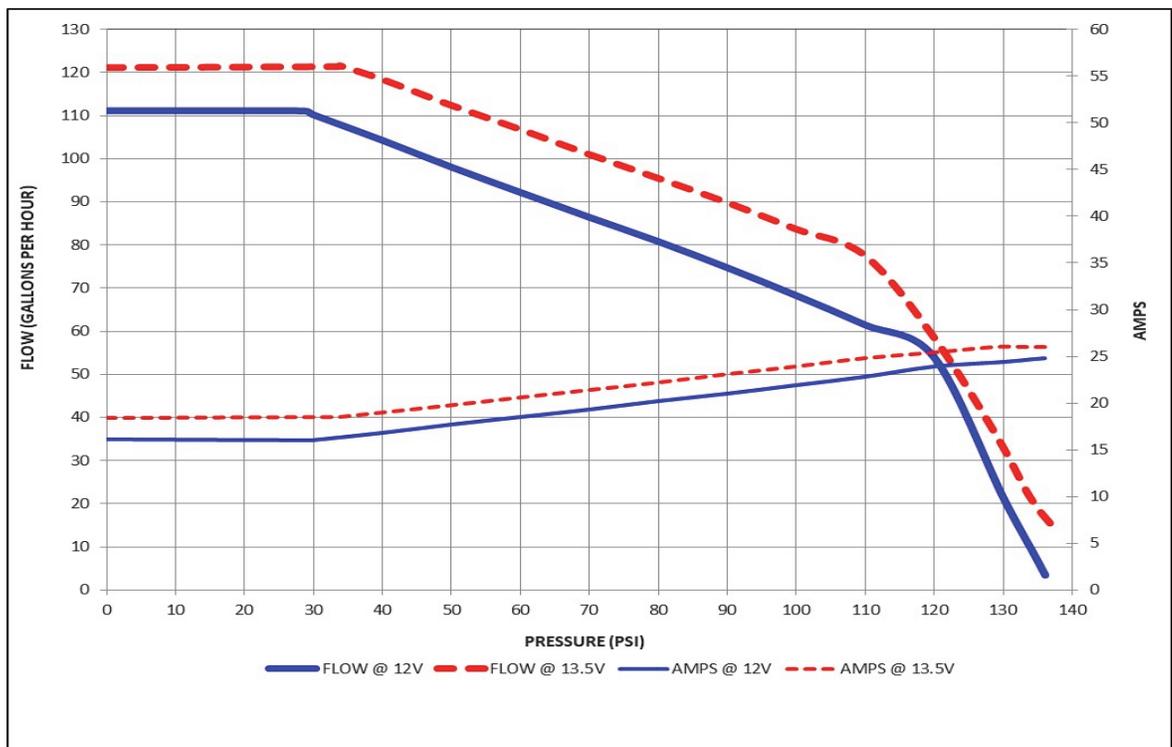

FLOW CHARTS

TCA948 DUAL PUMP
MAX SYSTEM PRESSURE 87 PSI

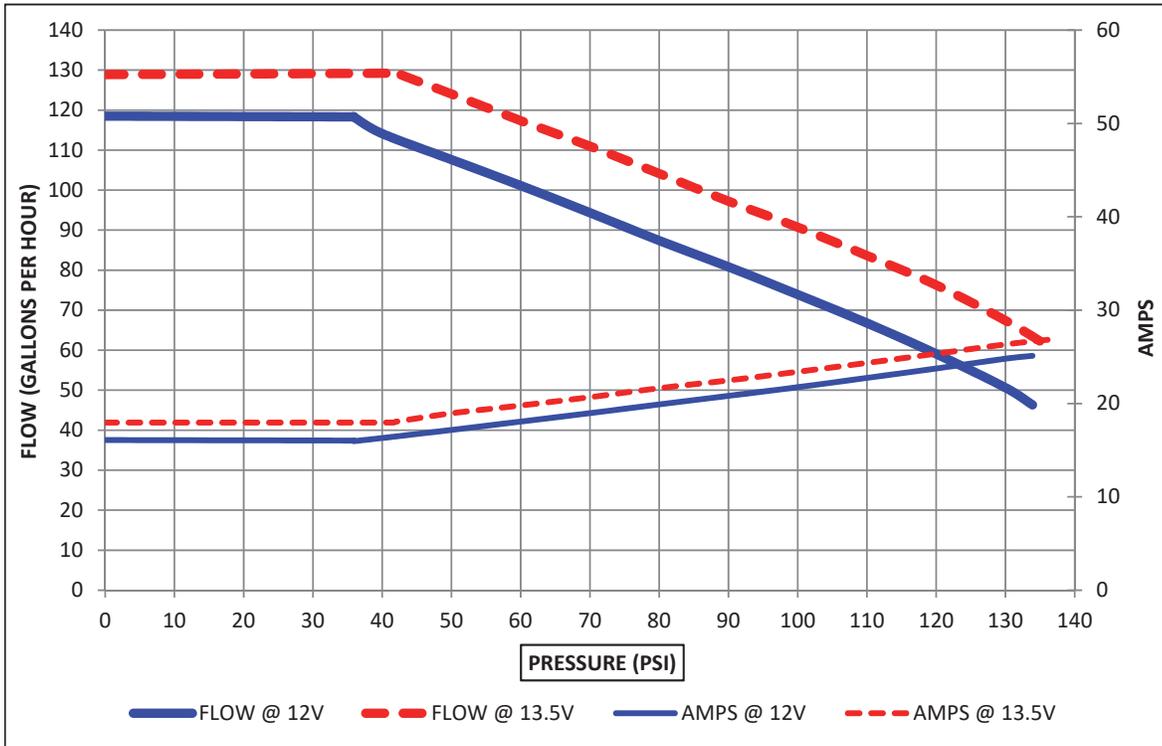

TYPICAL F90000285 PUMP
MAX SYSTEM PRESSURE 112 PSI

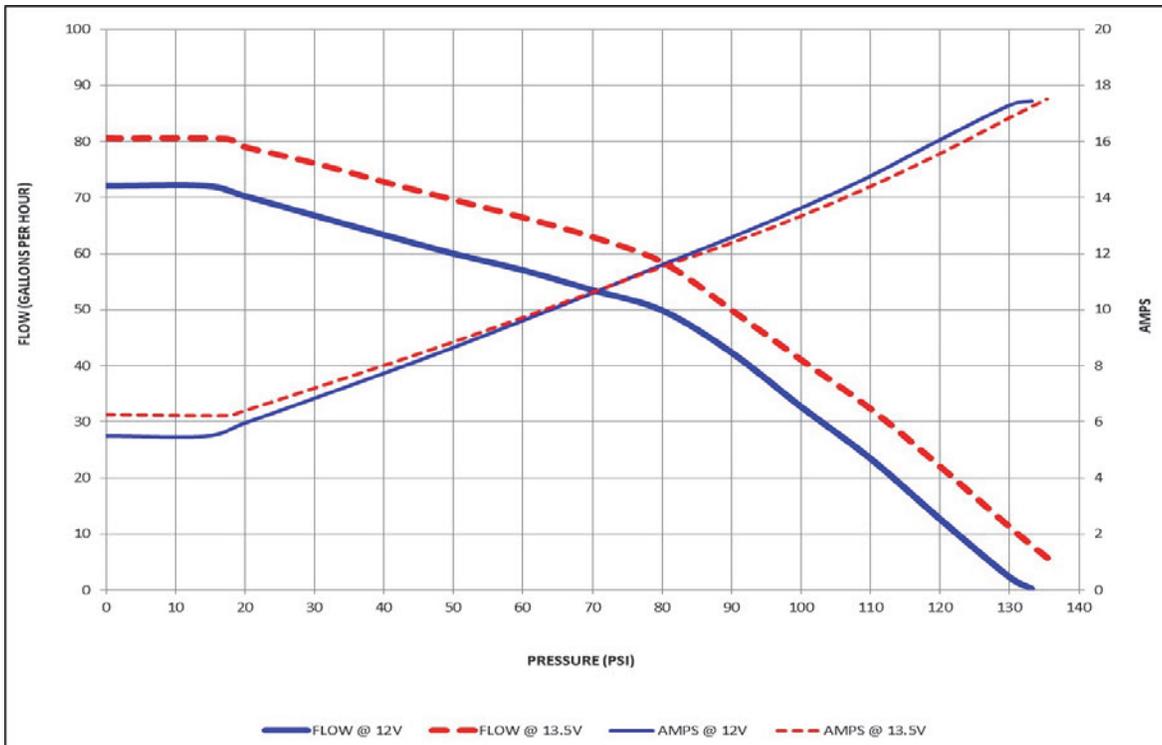

FLOW CHARTS

TYPICAL F90000295 PUMP
MAX SYSTEM PRESSURE 112 PSI

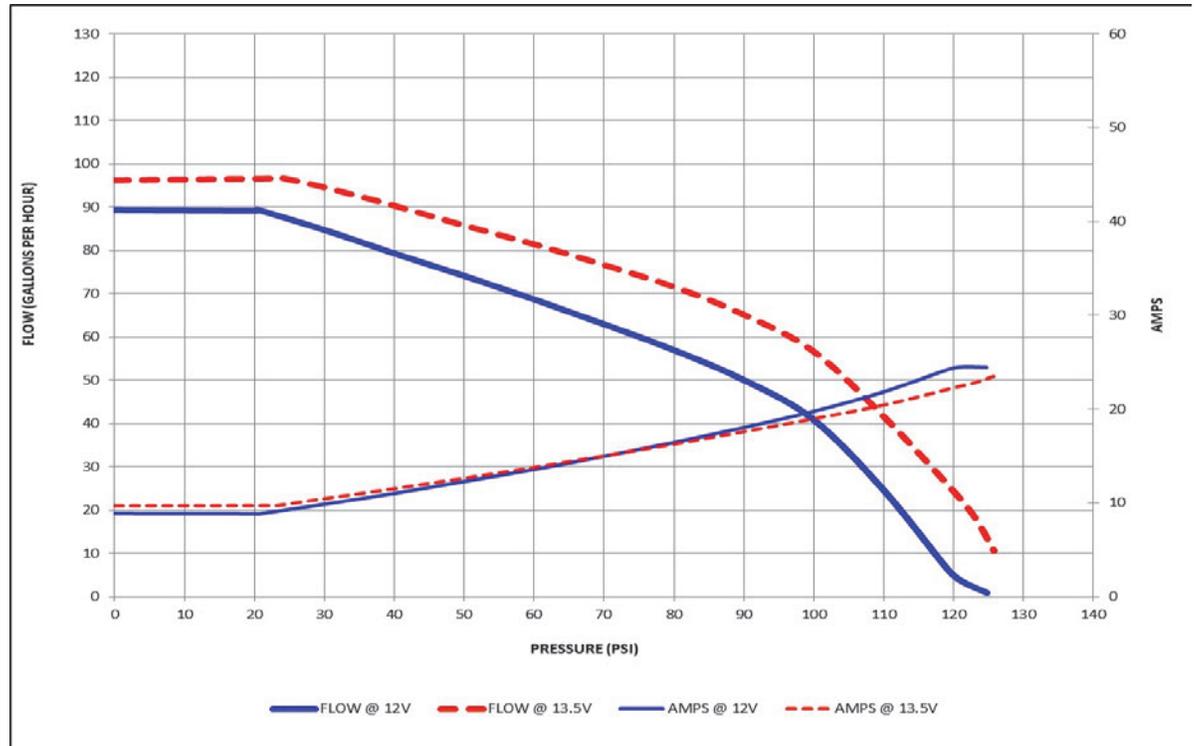

TYPICAL GSS340 SERIES PUMP
MAX SYSTEM PRESSURE 87 PSI

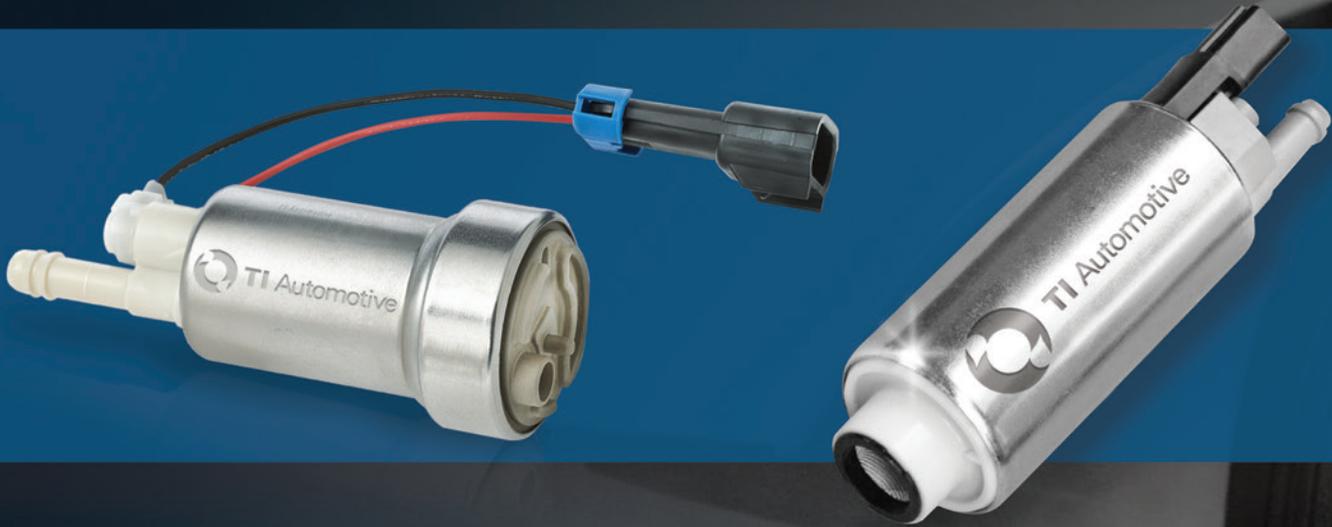

FLOW CHARTS

TYPICAL GSS350 SERIES PUMP MAX SYSTEM PRESSURE 87 PSI

UNRIVALED POWER

HIGH-PERFORMANCE APPLICATION GUIDE

TI AUTOMOTIVE E85 HIGH-PERFORMANCE IN-TANK FUEL PUMP

Outperforms all current market in-tank fuel pumps

- Designed for engines with more than 500 HP
- Award-winning OE technology
- High-pressure, high-flow performance
- OEM technology designed and developed for E85 – all pumping components have been validated to OEM specifications for approved use in E85/flex fuel application

HIGH-PERFORMANCE FUEL PUMPS

The TI Automotive GSS Line of high-performance fuel pumps have been widely recognized as the “Gold Standard” in the industry for more than 20 years. TI Automotive GSS pumps are compatible with a wide range of vehicles, feature unsurpassed quality, durability and performance, and are designed and manufactured in the USA.

CHOOSE YOUR HORSEPOWER

Fuel: Flex
Horsepower: 750+

Fuel: Gas
Horsepower: 500+

For unrivaled performance and durability, use this easy reference guide. Just look up your year/make/model to determine which of our award winning fuel pumps and modules is right for the horsepower you need.

39/50 DCSS HIGH-PERFORMANCE IN-TANK FUEL PUMP

- Designed for engines with more than 500 HP
- Award winning technology
- High-pressure, high-flow performance
- Requires modifications to wiring, fuel lines and fuel module
- Professional installation recommended
- Outperforms all current market in-tank fuel pumps

**Fuel: Gas
Horsepower: 500+**

HIGH-PERFORMANCE FUEL MODULES

TI Automotive fuel modules feature a high-performance fuel pump with filtration, level-sensing and storage with an OE-like fit similar to a traditional replacement module.

**Fuel: Gas
Horsepower: 550+**

FLOW

TI Automotive Fuel Pumps and modules deliver the feed you need for the power you demand. They fuel many of the world's most iconic high-performance rides with unquestioned fuel flow across a wide pressure range to support outrageous horsepower.

HORSEPOWER

TI Automotive Fuel Pumps power the fastest production cars in the world. We deliver rock-solid reliability, engineered to win for superior hot fuel handling performance. That's why leading brands turn to us for true OE-quality fuel system replacement parts.

PERFORMANCE

You don't get to be a worldwide leader in automotive fuel systems by settling for good enough. You have to deliver rock-solid reliability. You have to engineer to win. And you have to settle for nothing less than superior hot fuel handling performance.

TI AUTOMOTIVE HIGH-PERFORMANCE FUEL SYSTEMS

FAST MATTERS

Prowl the streets. Hit the track. Run boosted or all-motor. However you roll, TI Automotive fuel pumps and modules deliver the feed you need for the power you demand. These babies fuel many of the world's most iconic high-performance rides with unquestioned fuel flow across a wide pressure range to support outrageous horsepower. And we put the same passion for innovation, quality and performance into our aftermarket products so performance enthusiasts and racers can bring the boost.

FUEL PUMPS THAT POWER THE FASTEST PRODUCTION CARS IN THE WORLD

You don't get to be a worldwide leader in automotive fuel systems by settling for good enough. You have to deliver rock-solid reliability. You have to engineer to win. And you have to settle for nothing less than superior hot fuel handling performance. That's why leading brands turn to us for true OE-quality fuel system replacement parts.

TWO-THIRDS OF VEHICLES PRODUCED AROUND THE WORLD FEATURE TI AUTOMOTIVE TECHNOLOGY

TI Automotive's complete line of high-performance fuel pumps and modules meet the demands of today's high-pressure, high-flow engines with unrivaled performance and durability. As vehicles and their fuel systems become more sophisticated, our decades of technical and engineering expertise bring award-winning OE quality to the manufacturing of performance fuel pumps for the aftermarket.
